*"A few years ago I went to the Riva 1920 factory in northern Italy on a visit organised by Fanuli. It was inspiring to meet the family that has produced furniture for three generations, to feel their passion for the timber they source and to witness their manufacturing processes ... I love the simplicity of the 'Curve' bench, carved from a single block of blackened cedar wood, and the combination of raw steel and walnut in the 'Sky Natura' dining table, with the library shelves as a backdrop."*

These pages, Warren Creek artwork by Lorna Brown Napanangka. Riva 1920 'Curve' bench in solid black cedar wood, and 'Sky Natura' dining table in steel and walnut, both from Fanuli.
