A painting of an eagle by Karl Martens “set the tone” for the living room of this Sydney home, says interior designer Cristina Repeti of Hare + Klein, who created it along with design director Meryl Hare. The family wanted a space to come together, with no TV. A sofa from Fanuli and chairs from Stylecraft deliver an inviting spot to gather. Relaxed style was important: “The fire was added to provide a focal point other than a TV, and for comfort,” says Cristina. ►
